News From the Director

As always in April we celebrate libraries with National Library Week. This is a week to celebrate the valuable role of libraries and librarians that they play in transforming lives and strengthening our communities. The Wray Public Library spends this week celebrating with our patrons. Check out the schedule and see if there is something you would like to participate in. If not, still stop in and have a cookie, say hello and sign up for a prize.

Also kicking off in April will be our Music Lending Program. With thanks to the Gary Stroup family and The Space, the Wray Public Library will now have an acoustic guitar and a ukulele available to check out. This way you can have your children try out the instrument before you purchase one, or if you need an extra for a play or gathering. We will kick off this new program with Music in the Library with our very own Missy Uyemura entertaining us from 10:00 to 10:30 on April 12th.

Fun and entertainment in April at the Wray Library. As I always say, the Wray Library is more than just books.

Happy Reading!
